 Corinth MS 38834  
 USA

**DIAGNOSIS**

Cooler core leaching/clutch pack/thrust washer wear indicated. All other wear rates normal. Abrasive and other contaminant levels are acceptable. Viscosity low for specified oil grade. Action: Check for any abnormal noise, vibration, or poor performance. Change oil and filter(s) and evaluate filter debris as a precaution. Resample at a reduced service interval to further monitor.

**ANALYST:** Jon.Sowers

Since services are based on samples and information supplied by others, and since corrective actions, if any, are necessarily taken by others, these services are rendered without any warranty or liability of any kind beyond the actual amount paid to ALS Tribology for the services. Reported recommendations are based on interpretations of the generated test results and historical data. Certain test results appearing in this report may have been tested at other ALS laboratories within the Tribology divisional network.
